New Data Classification/Impact Calculators

Russell Gatlin

► Data Classification/Impact Calculators

The Division of IT has rolled out several tools to help with calculating the appropriate classification for data and see the impact scores of your information resources.

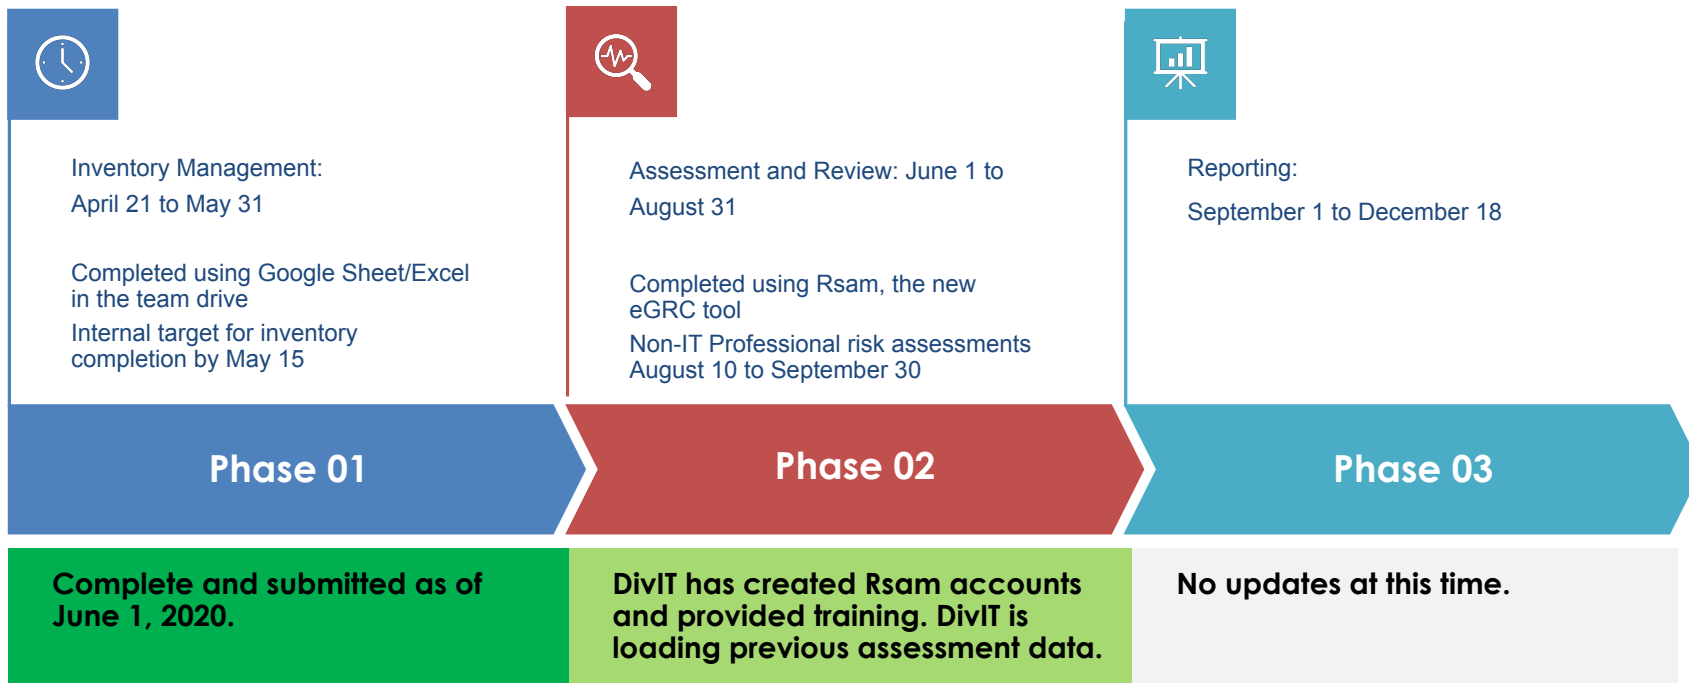

[Data Classification Calculator](#) - Determine the appropriate classification for data, help units allocate resources, prioritize the selection and placement of security controls, and ensure systems containing sensitive information meet security standards.

[Impact Calculator](#) - Calculate the impact score of information resources and help units allocate resources.
