

Mac & Chromebook: Remote Desktop without VPN

DSA IT has implemented a method for connecting to your office computer remotely. You will still use the Remote Desktop Connection application but will no longer be required to connect to the Cisco AnyConnect VPN, even if off campus.

Enrollment in DUO for DSA is required to use this connection. Please click [here](#) for enrollment instructions: [DUO Enrollment for Student Affairs](#)

1. Install Microsoft Remote Desktop 10 from the app store.
2. Open Microsoft Remote Desktop and select “Add PC”.

3. In the Add PC window. You will need put in your workstation's device name in the field, and then select “Add a Gateway”.

Add PC

PC name:

User account:

General | Display | Devices & Audio | Folders

Friendly name:

Group:

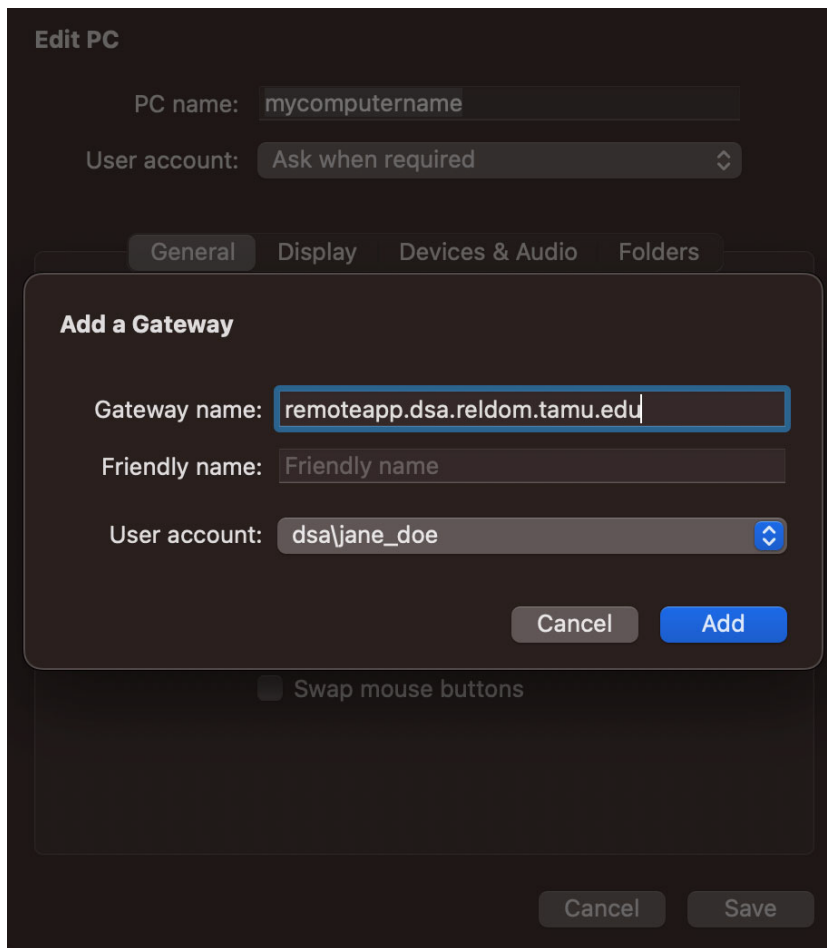

Gateway

☒ Reconnect if the connection is dropped

☐ Connect to an admin session

☐ Swap mouse buttons

4. In the Add a Gateway window. You put remoteapp.dsa.reldom.tamu.edu in the “Gateway name”, and select “Add User Account” as show on the screenshot.

5. In the Add a User Account window the username will be inputted in as dsa\YourDsaAccount with your DSA account password. Select add when finished on all windows.

The image shows a dark-themed software window with two main sections. The top section is titled "Add a User Account" and contains three input fields: "Username:" with the text "dsa\username", "Password:" (empty), and "Friendly name:" with the text "Optional". There is a "Show password" checkbox below the password field. At the bottom of this section are "Cancel" and "Add" buttons. The bottom section of the window contains a "Gateway:" dropdown menu set to "test", followed by a "Bypass for local addresses" checkbox which is checked. Below these are three more checkboxes: "Reconnect if the connection is dropped" (checked), "Connect to an admin session" (unchecked), and "Swap mouse buttons" (unchecked). At the bottom of the entire window are "Cancel" and "Add" buttons.

Add a User Account

Username: dsa\username

Password:

☐ Show password

Friendly name: Optional

Cancel Add

Gateway: test

☒ Bypass for local addresses

☒ Reconnect if the connection is dropped

☐ Connect to an admin session

☐ Swap mouse buttons

Cancel Add

You are ready to connect to your work device! If you have any questions or having an issue connecting, please feel free and contact us.
